

# MATHEMATICS SOCIETY (SH)

## CCA days and timings:

Monday: 4.40 pm to 7.00 pm

## Venue:

Mathematics Sphere

## Introduction:

Since its inauguration in 2013, Mathematics Society has been providing members with a multitude of opportunities to explore the seemingly endless world of Mathematics. Our members participate in prestigious mathematical competitions such as the Singapore Mathematical Olympiad, Australian and American Mathematics Competitions and Singapore International Mathematics Challenge (SIMC). Through these competitions, our members learn Mathematics beyond the classroom syllabus, see its applications in real life, and further develop their passion in Mathematics. Our members have done well and achieved numerous awards in these competitions.

In addition, Mathematics Society allows members to hone their collaboration, communication and leadership skills through the planning and execution of several events, one of which is Mathematics Week. Mathematics Week is an annual event organised by Mathematics Society to generate interest in mathematics for all students in the school.

Indeed, members of Mathematics Society aim to share their passion for Mathematics with their peers, by making Math fun and engaging, and at the same time gain a deeper appreciation of the beauty of Mathematics.

## Achievements:

### **Singapore Mathematical Olympiad (Open) 2019**

- 1 Gold, 2 Silver, 5 Bronze

### **American Mathematics Competition 2019**

- 1 Distinction

### **Australian Mathematics Competition 2019**

- 5 High Distinctions

### **High School Math Contest in Modeling (HiMCM) 2019**

- Honourable Mention award

### **Singapore International Mathematics Challenge (SIMC) 2018**

- Commendation award and Special award (Presentation)
