## Introduction:

D' Momentum focuses on international dance anchoring on contemporary dance for our Junior High Students.

D' Modern dance for Senior High students is anchored in contemporary, but on a higher level focusing on the dancer's interpretations of the dance steps and the diversity of dance steps which seek to express one's innermost feelings. The floorwork, conditioning and choreography will be of an increased level from D' Momentum. Dancers are constantly made to step out of their comfort zones and challenge their own limits, while working together as a team to put up quality performances for our audience.

D' Movement is the urban, hip hop branch of Dance Society, a crew empowered by the freedom of expression, driven by the courage to explore the limits of creativity and most importantly, inspired and bonded by a shared passion for dance.

We always have performances for school events and for symposiums organised by our school such as the annual ASEAN Plus Summit. We also participate in external invitations by other dance organisations and initiatives to perform in various venues such as the esplanade. By joining us, students can learn and raise their zest for dance. Seasoned teaching and fresh perspectives in choreography which can enrich your dance experience. A close knit community of dancers sharing their passion together.
