Introduction:

Dunman High Girl Guides empowers our girls to develop and achieve their fullest potential. Our Guides participate in a range of activities, such as badgework and outdoor activities, which hone both their hard and soft skills to develop themselves as well-rounded individuals. Creative elements in activities such as gadgeting and pioneering (the building of structures with spars and smaller gadget poles) allow the Guides to be inventive in finding solutions as well.

Through these fun and challenging programmes and unique experiences, our Guides grow their leadership skills as well, gradually taking on ownership of their events and their Guides Company.

Dunman High Girl Guides will continue to lead the change for a sustainable future through the forging of friendships with fellow sister Guides.

Achievements:

Puan Noor Aishah Award (Gold) – Coy 1
