Venue:

Various venues around the school

Introduction:

Dunman High St John Brigade (DHSJB) prides itself as a home for nurturing leaders and caring citizens. Members undergo a structured training programme which stretches their leadership potential and equips them with the essential expertise in first aid, foot drill, home nursing and transport of casualty. In addition, members have the opportunity to plan and execute events and activities, which involve collaboration, critical thinking and time management skills. "To learn, to advance, to excel" is the motto that drives us through our tough yet fulfilling trainings. There are many opportunities to bond and forge closer ties through various enjoyable activities such as our Annual Leisure Day and Intra-Corps Competition.
