Introduction:

The Culinary Club is a CCA which provides a platform for members to display their passion for cooking. We aim to spread knowledge about food through teaching and exploring the different recipes and equip better culinary skills to cooking enthusiasts in DHS. A variety of dishes will be taught by our external vendors. Through every cooking session, members will learn basic culinary skills and also how to work as a team in perfecting a dish. By working together as a team, members are able to develop teamwork and also form new friendships through their shared passion for cooking.
