

PHOTOGRAPHIC SOCIETY (SH)

CCA days and timings:

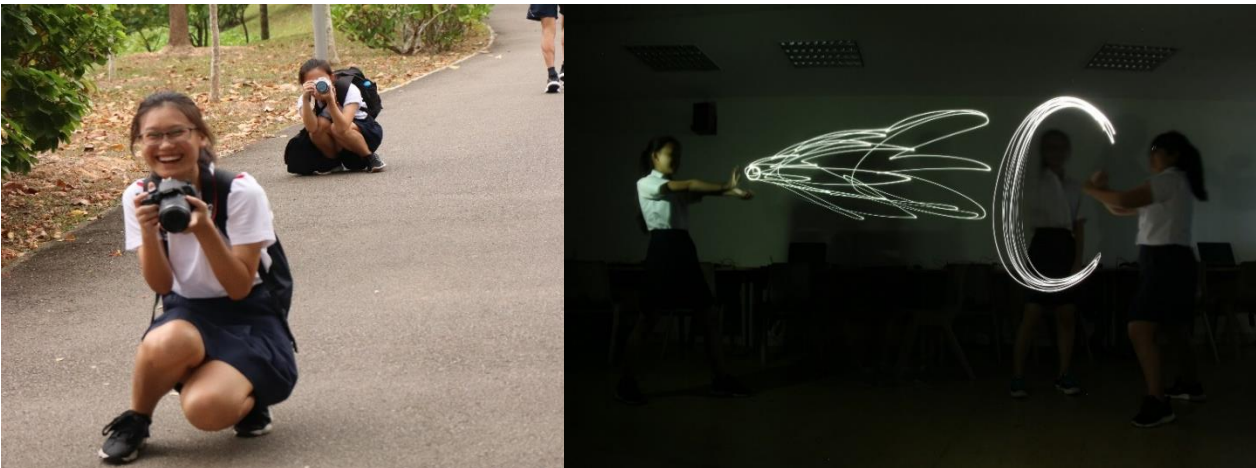

Wednesday: 2.30 pm-5.30 pm (CCA Session)
Ad-hoc: Photography duty for school events

Venue:

Photography Studio / Computer Lab / Outdoor Location

Introduction:

Our CCA believes that everyone has the potential to be photographers as long as they are willing to learn. We instil the passion for learning in our members through the use of photography, starting the year by teaching our members basic features and functions of a DSLR camera. Members will also be able to learn how to execute various types of photography and also get the chance to try them out during weekly CCA sessions, for instance, light painting. On top of that, various platforms such as covering of school events and fun-filled learning journeys to various parts of Singapore are also provided to further develop members' skills.

ROBOTICS CLUB (JH)

CCA days and timings:

Monday: 3.00 pm to 6.00 pm

Friday: 3.00 pm to 6.00 pm

Venue:

SH computer Lab 1

Introduction:

Innovative, Illustrious, Incandescent.- These are the three core values that encapsulate the heart of Robotics Club and something that we continue to inculcate in our club members. Robotics Club is known for the spark of creativity and imagination. The CCA is the place for students to apply their technical and soft skills effectively and ingeniously.

Other than preparing for competitions and attending training, we have skill training programs, enrichment sessions, and team bonding activities. We place great importance in nurturing a familial spirit within our club by having induction games and the annual Robotics June Camp, and deliberately mixing senior and junior members in competition teams to facilitate the mentoring of younger members and building of bonds within the CCA.

Achievements:

Singapore Amazing Flying Machine Competition - Best Presentation Award

First Lego League – Strategy and Innovation 1st Runner-up

National Air Race Championship – Air Race (Team Open Category) Silver Award

SCIENCE SOCIETY (SH)

CCA days and timings:

Typically once or twice a week, at a day and time agreed between individual members with teacher-in-charge and mentor.

Venue:

University laboratories, research institutes or school laboratories

Introduction:

Science Society is aimed at nurturing students into capable, competent researchers with 21st century skills. It offers students an opportunity to undertake research projects in the scientific discipline area of their interest, such as nanotechnology, material science, life sciences etc. Students spend a month to a year under the expert mentorship of researchers at A*STAR, NUS, NTU, or SUTD. Students also have opportunities to participate in local and overseas competitions and scientific conferences to communicate their findings with other young researchers. Students can also look forward to planning visits to research institutes, VIAs to serve the community and science outreach to young children. In the process, they hone soft skills like resource management, teamwork, communication skills and leadership.

Achievements:

3 Golds and 3 Special Awards in the 2019 Singapore Science and Engineering Fair (SSEF)

1st Runner-up in the 2019 A*STAR Talent Search (ATS)

Two 3rd Awards in the Material Science Category of the 2019 International Science and Engineering Fair (ISEF)

STUDENT COUNCIL (JH & SH)

CCA days and timings:

General Meetings – Wednesday afternoons

Venue:

LT2 / 3

Introduction:

The Student Council aims to nurture exemplary leaders of character who inspire positive change in school and beyond. Our mission is to develop a driven team of Councillors to their maximum potential in caring, serving and leading. Caring, serving and leading are an integral part of our School Mission, and hence have been adopted into the Student Council's Mission. Being the pinnacle of student leadership in Dunman High School, it is expected that our Councillors embody what it means to care, serve and to lead. Councillors care by seeking to understand the student body and their needs. They serve by taking pride in putting our utmost effort to meet the needs of the school. They lead by being role models of character and values, as well as empowering others to serve the school as well.

In 2019, the Council has continued to pursue quality initiatives which are tailored to the needs of Dunmanians. Some of such actions include the revamping the Teachers' Day celebrations to have a teacher-centric program, the engagement of CCA leaders to gather feedback, the planning and execution of the inaugural Senior High D'Carnival as well as the Dunman Day to celebrate the Dunman Spirit and build vibrancy in the school.

In addition, the Council involved other students in the planning and execution of many school events, allowing the school to have greater ownership in these events. Some of such events include Prom Night 2018, D'Carnival 2019, as well the collaboration with sports leaders for competition support. In collaboration with the Council, students were able to get a taste of planning large scale events and see their work coming to fruition.

In the coming year, the Council remains committed to fostering a family spirit in the school, and we will continue strive to inspire positive changes in the school.

Achievements:

-

YUTAKA JAPANESE CULTURAL CLUB (SH)

CCA days and timings:

Wednesday: 2.30 pm to 5.00 pm (Event Planning, Japanese Lessons, Anime/Drama Screening)

Friday: 7.55 am to 8.55 am (Presentations/Cultural Workshops, Event Planning, Anime/Drama Screening)

**For YJCC as a 2nd to 5th CCA, Wednesday meetings are not compulsory, but encouraged.*

Venue:

JH Computer Lab 4 (Wednesday and Friday Mornings)

Introduction:

豊(Yutaka): Abundance--of culture and fun.

No matter your interest in modern or traditional culture, explore and experience Japan with the Yutaka Japanese Cultural Club! Our weekly activities (Wednesdays and Fridays) range from Japanese lessons to cultural games (Hanafuda, Shogi, etc), to anime and drama screenings. Such activities are not limited as we are always on the lookout for more interesting club activities, and members can propose what they would like to do.

Throughout the year, we celebrate various Japanese festivals, such as Children's Day, Coming of Age and partake in cultural events, including Natsumatsuri (Summer Festival) and Seiransai (Waseda Shibuya Senior High School's Cultural Festival). Through cultural exchanges with Japanese schools, both locally and in Japan, we broaden our perspectives about the culture and widen our social circle with our Japanese counterparts. To promote Japanese culture, we organize events such as our Japanese Arts Fiesta and Japanese Arts Exhibition. The club also hosts regular presentations on social happenings in Japan as well as haiku poetry writing competitions to encourage cultural appreciation. The club hopes to share many wonderful memories with you and we look forward to welcoming you into our extended family!
