

# VENTURE SCOUTS (SH)

## CCA days and timings:

Friday (facilitating training with Scouts or own activities)

## Venue:

Dunman High School (raised platform- for pioneering and outdoor activities)

External venues (for Scout HQ courses)

## Introduction:

- The Ventures offer a platform for mentoring and guidance of Junior High students, as a way to develop one's leadership abilities
- The Scout HQ offers a range of activities at the National, International and Area level, to engage people that love outdoors, under the fellowship of other scouts. These include expeditions, Jamborees, camping outdoors, navigation courses and others.
- Those who join Ventures can look forward to being empowered to help others, and also empowered to enjoy the outdoors, be it through pioneering, organising expeditions or interacting with fellow scouts from other schools and even other countries. The upcoming ASEAN Jamboree In 2020 encapsulates many of these ideas.
- Join us to simultaneously share and also learn new perspectives and skills, through hands on as well as deep discussions on various skills and training approaches.

## Achievements:

We have hosted the first East Area Campfire (2018), and have run the Cub Scout Outreach (East Area) for many years, improving the skillsets of younger scouts in the area. We work closely with the Scout Unit to uphold traditions and skills from a proud history created by all members of the Crane Scout Group. As a testament to the sound processes, 10 Ventures were awarded the internationally-recognised NYAA award in 2019 by journaling their reflections of their Venturing journey.
